**WeatherTek® DW**  
Drainage Wrap

## Smart Drainage. Superior Defense.

The WeatherTek DW offers advanced moisture management with a built-in drainage matrix for superior drying behind cladding. Engineered for performance, breathability, and efficient installation, it's the go-to solution for projects demanding both protection and water drainage.

### Why Choose WeatherTek?

We deliver peace of mind with dependable drainage performance that exceeds industry standards. Whether you're installing behind fiber cement, stucco, stone veneer, or engineered wood siding — WeatherTek DW ensures efficient drying, mold resistance, and extended durability.

### Physical Properties Test Data

Physical Properties	Method	Units	Typical Value
Air Penetration Resistance	ASTM E2178	(cfm/ft <sup>2</sup> @1.57 psf	<.004
Drainage Efficiency	ASTM E2273	%	>98%
(MVT) Moisture Vapor Transmission	ASTM E96	Perms	20
Water Penetration Resistance	AATCC 127	cm H <sup>2</sup> O	321
Tensile Strength	ASTM D5034	lbs	67 lbs MD / 40 lbs CD
Basis Weight	TAPPI T-410	oz/yd <sup>2</sup>	2.45
Flame Spread Index	ASTM E84		5 (Class A)
Smoke Develop Index	ASTM E84		40 (Class A)
Ultra Violet Light Exposure (UV)			9 Months
Flame Propagation/Multiple Assemblies	NFPA 285		Pass

### Key Features

UV Resistance  
Up to 9 months

Non-Woven Polyolefin  
Provides Superior Tear Strength

Non-Perforated  
Superior Breathability

Water Resistance  
For Bulk Water Holdout

### Standard Sizes

9' x 100'

9' x 125'

9' x 150'

10' x 100'

10' x 125'

10' x 150'

# Make Every Build a Brand Statement.

Custom house wrap that builds brand visibility before the project is even done.

## Why Just Protect, When You Can Promote?

Custom-printed house wrap turns every project into a high-visibility branding opportunity. It's the same durable, weather-tested protection you trust — now with your logo printed loud and clear across the job site. Whether you're a builder, supplier, or contractor, this is a smart, low-effort way to increase recognition, build credibility, and stand out from the competition.

## Benefits

**Market as You Build**  
Your house wrap doubles as a billboard.

**Professional Impression**  
Show customers and inspectors that you invest in quality from the inside out.

**WeatherTek Durability**  
Built-in performance. Same trusted protection — now custom branded.

## Custom Printing Options

Feature	Details
Minimum Order	1 pallet
Lead Time	3–4 weeks (first order) 2 weeks (reorders)
Imprint Area	40" x 30"
Logo Repeat	Every 48"
