

WeatherTek® DW

Drainage Wrap

PART OF THE WEATHERTEK SYSTEM

Smart Drainage. Proven Protection. Commercial & Residential Construction.

WeatherTek DW is a non-woven, non-perforated drainage wrap engineered to manage moisture behind cladding through a built-in drainage matrix.

Designed for performance, breathability, and efficient installation, it supports faster drying and long-term durability in more demanding wall assemblies.

PHYSICAL PROPERTIES TEST DATA

Air Penetration Resistance
(ASTM E2178) < 0.004 cfm/ft² @ 1.57 psf

Drainage Efficiency
(ASTM E2273) >98%

Moisture Vapor Transmission
(ASTM E96) 20 perms

Water Penetration Resistance
(AATCC 127)
(ASTM D-779) 321 cm H₂O Pass

Tensile Strength
(ASTM D5034) 40 lbs MD and 67 lbs CD

Basis Weight
(TAPPI T-410) 2.45 oz/yd²

Flame Spread
(ASTM E84) 5 (Class A)

Smoke Developed Index
(ASTM E84) 40 (Class A)

UV Exposure 9 Months

Flame Propagation / Multiple Assemblies
(NFPA 285) Pass

Approved above 40' for Types I – IV Construction

Non-Woven Composite

Continuous polyolefin membrane engineered for strength and consistency

Built-In Drainage Matrix

Creates a capillary break to promote efficient drying behind cladding

Non-Perforated Air Barrier

Limits uncontrolled air movement while remaining vapor permeable

Water-Resistive Barrier (WRB)

Designed for bulk water holdout in demanding conditions

9-Month UV Rated

Approved for extended exposure on longer construction timelines

Available in Standard Sizes

9' x 100' 10' x 100'

9' x 125' 10' x 125'

9' x 150' 10' x 150'

Optional Sizes

Widths 3', 4.5', 5'

Lengths 100', 150', 200'

Custom Printed With Your Logo

Make Every Build A Brand Statement

Custom-printed building wrap turns every project into a high-visibility branding opportunity. It's the same durable, weather-tested protection you trust, now with your logo printed loud and clear across the job site.

Whether you're a builder, supplier, or contractor, this is a smart, cost-effective way to increase recognition, build credibility, and stand out from the competition.

Oversized Print Area

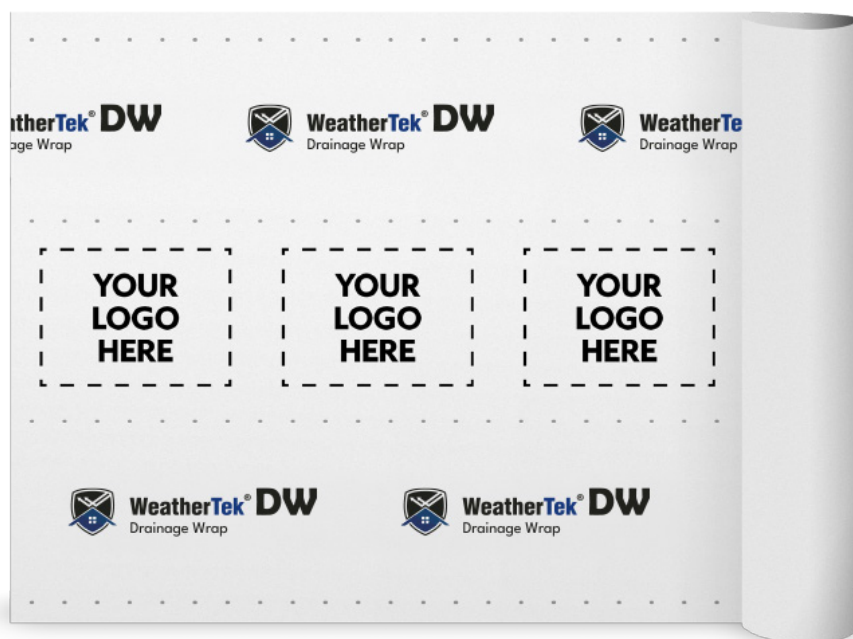

WeatherTek's Custom Print Program features a larger, more visible print area than competing wraps—up to 1,200 square inches.

Fast Turnaround

Built for Repeat Orders

CUSTOM PRINTING OPTIONS

Minimum Order	1 Pallet
Lead Time	3–4 weeks (first order) 2 weeks (reorders)
Imprint Area	40" x 30"
Logo Repeat	Every 48"
Colors	1-2 color logo

Build your brand while you build the project.
